

Central and Eastern European e|Dem and e|Gov Days 2019

Cyber Security and eGovernment

National University of Public Service and Budapest University of Technology and Economics, May 2-3, 2019

<http://ceeegov2019.ocg.at> <http://twitter.com/ceeegov>

Call for Papers – Abstract Deadline: November 30, 2018

Special Conference Theme

The CEEeGov Days are dedicated to all aspects of Public Sector ICT, however, every year a special topic is chosen, which also dominates keynotes and panel discussion. This year we felt that the pervasive importance of cyber security in virtually all domains of public sector ICT is clearly indicated as a special topic. The view of cyber security over time has changed; from an add-on to existing system to an integral part of system design, implementation, operation and management. The General Data Protection Regulation heightened this even more. Cyber security however is not only a technical endeavor – which is challenging enough in itself – but also understood as an administrative and organizational challenge, which ensures that technological solutions are leveraged to the best of their abilities and in a sustainable way in an organization. This ultimately makes cyber security a cross-platform and multi-disciplinary approach, which spans the entire domain of eGovernment and eDemocracy solutions.

The conference addresses public sector practitioners and policy makers, industry professionals and academia alike. The disciplines covered are primarily information sciences, law and administrative science, political science, sociology and economics. Theoretical and empirical contributions are equally welcome. We especially encourage submissions addressing the European Union in general, the Danube Region, the Balkans and Eastern Europe.

Beyond the general theme, **papers are solicited in all areas of applying ICT to the Public Sector**. The conference will particularly focus on, but not limit itself to, the following topics:

- Electronic Administration services both back office and in communication with the citizen,
- Identity management for individuals,
- Privacy and data protection (including Cyber Security),
- eDemocracy on all levels (e.g., new forms of citizen participation, internet in political campaigns, eVoting),
- The role of the internet in revolutions and in transition processes,
- Transparency and anti-corruption,
- eTools to help establish a European public space,
- Open Data,
- Legal aspects of eGovernment and eDemocracy,
- Economic and social impact of eGovernment and eDemocracy,
- Enabling the Digital Single Market

The conference language will be English only. Papers will be subjected to a double-blind review process and published jointly by Facultas and the Austrian Computer Society.

Organisers

- Austrian Computer Society (OCG)
- Budapest University of Technology and Economics (BME)
- Information Society Development Institute, Moldova (ISDI)
- National University of Public Service, Budapest (NUPS)
- University of Public Administration and Finance, Ludwigsburg (HVF)

Since 2015, the EDEM conference series, organized by OCG since 2007, has joined forces with the CEEeGov Days and strengthens the fields of citizen participation and digital democracy within the conference.

Timeline and organisation

A two-stage selection process is to apply:

Nov 30, 2018	Abstract submission (approx. 200 words), abstracts not reviewed but checked whether they are in scope
Dec 15, 2018	Notification of whether the abstract is in scope combined with the invitation to submit the full conference paper
Jan 15, 2019	Paper submission (max. 10 pages), double blind full paper review according to scientific standards
Feb 24, 2019	Reviews out
March 17, 2019	“Camera-ready” papers due (standard OCG format available)
April 30, 2019	Volume available
May 2-3, 2019	Conference

Organisation and Contact

Please submit your abstracts/papers to ceeegovdays@ocg.at

A template will be made available for the paper preparation and can be found on the website of the conference.
